DECLARATIONS IN ACCORD WITH 37 CFR 1.195 AND MPEP 1207

In the outstanding action, the Examiner states on page 5 in lines 4 - 5 that "the statements in the affidavits are self serving statements." While this is certainly the case, the appellant and his representative do not believe such statements, whether self serving or otherwise, should be disregarded. Such would fly in the face of affidavit practice as it exists before the Patent Office. Nevertheless, appellant is providing herewith an additional set of declarations made by two individuals very experienced in the marine industry and familiar with the terminology used therein. These individuals recognize the same identity recognized by the appellant. These declarations were not earlier forwarded because the Examiner first objected to the declarations by the appellant and his partner as being self-serving. Consequently, consideration of these in the present appeal is respectfully requested, and appropriate.

A supplemental declaration by the appellant is similarly provided herewith, which restates the contents of the previous declaration but which further sets forth the appellant's experience in this
